

TIPS FOR ORGANISING YOUR WARDROBE

Cull if garments have the following:

- rips
- pulls
- bally fabric
- faded
- gone out of shape
- holes
- too big
- too small (more than one size)
- Any patterns that are too busy and make you feel cross eyed!
- Any pieces that you don't feel great in ie
- "I feel like this might not be flattering"
- "I feel really drab in this" "
- "It's just not me"
- "I feel like this colour washes me out"

GONE GONE GONE!!!

Put aside pieces that you need to have altered and get onto fixing them. Same goes with dry cleaning.

Put aside pieces you love and don't wear because you are not sure how to wear them. Then ask a creative friend or CMI styling (personalised wardrobe session) to help you work with those pieces.

Use wooden or felt hangers

Store Autumn/Winter clothes in tubs or vacuum seal bags
It helps to colour co ordinate your wardrobe.

Also to divide your clothes into sections.

- jackets/pants/skirts/dresses/tops/shirts
- belt hooks/ scarf hooks/
- shoe rack or clear shoe boxes
- accessories into separate boxes ie dangly earrings/studs/chunky bracelets/fine bracelets/costume rings/precious rings/fine necklaces/chunky necklaces.

If your wardrobe is colour co ordinated, seasonal, culled to what you like to wear and visually organised, you'll have an enjoyable experience when co ordinating what to wear each day.
